

## ENGINEERING EXPERTS

At RB Royal, we encourage our customers to involve our engineers early in the design phase to help them benefit from our experience and knowledge. From concept to prototype to production, our engineering staff offers recommendations that will result in an enhanced design with the most cost-effective solution for our customers' applications.

### RB Royal offers:

- Design expertise for your unique hose and tube applications
- Full CAD capabilities for evaluating both drawings and 3-D models
- Dedicated prototyping resources to accommodate your scheduling needs

### Product Development Center:

Within our facility we have a Product Development Center to enable our engineers and technicians to work side-by-side with you to ensure the product we design is optimized for your application.

*At RB Royal, we design and manufacture custom hose and tube assemblies as well as precision machined products for applications involving fluid power, fluid transfer and systems integration. Call our experts or log onto [www.rbroyal.com](http://www.rbroyal.com) to find out how we can help you today.*
